# Bus articulation systems: the HÜBNER success story

Press release

Motorindia 7/2009

**Bus articulation systems: the HÜBNER success story**

As bus models and technology have developed over the years, demands placed on the articulated joints of vehicle sections have undergone many changes. The evolution of these components through decades is presented by Dr. Stefanie Böge, responsible at HÜBNER GmbH for strategic organizational development in the division for street vehicle gangway systems....
