HÜBNER has passed IRIS certification.

HÜBNER has passed IRIS certification.

As one of the first companies, HÜBNER has received the quality certificate IRIS (International Railway Industry Standard) , the new quality standard of the railway industry according to the new revision 1.

The purpose of the IRIS certificate is to create an international, uniform quality standard for all suppliers of the railway industry. The IRIS standard attaches great importance to the transparent and pragmatic monitoring and control of projects and processes.

HÜBNER has received an excellent certificate after the auditing, as the given degree of performance was highly exceeded by HÜBNER.
