

Company

HÜBNER GmbH counts among the system providers for high-tech industrial products with long-lasting traditions.

On almost every continent, the company - which was established almost more than 60 years ago - supports its customers with innovative technology and comprehensive know-how.

Among our core competences are the design and production of access systems, vehicle articulation systems, folding bellows, window systems, rubber products, plastic injection-molded products, polyurethane foam shaped parts as well as gangway systems.
