

# Folding bellows and gangway systems

Subway gangway

## Flexibility and safety on the highest level

Whether in trams, subways, rapid-transit, regional and long-distance trains or high-velocity trains, HÜBNER gangway systems are providing reliable service worldwide. Our flexible gangway systems offer a maximum of convenience and safety. Observing the requirements of our customers, we manufacture folding and gangway bellows as well as flexible gangway systems even for large capacity high-comfort gangways with interior trim for all types of railway vehicles. Our expertise in design and choice of materials has made us a reliable and capable contact in the railway industry.
